

Remarks:

Claims 16 to 20, which were subject to a restriction requirement, are canceled without prejudice to their being asserted in a divisional application or otherwise.

The Drawing has been corrected as required in Fig. 3, and also in Fig 5, which is replaced with Figs. 5 and 5A to show alternative structure of the stanchion 22 or 22'. The text has been amended at page 4 and page 7, without introduction of any new matter.

In view of the foregoing remarks, it is urged that all of Claims 1 to 15 are all in condition for allowance.

Respectfully submitted,

Bernhard P. Molldrem, Jr.
